NGUYEN TRUONG AN

DATA SCIENTIST | DATA ENGINEER | AI ENGINEER | MACHINE LEARNING ENGINEER (MLE)

Ho Chi Minh City, Viet Nam | 0394 682 103 | truong.an.code@gmail.com

PROFILE

Final-year Data Science student with experience in LLM chatbot projects, web applications, and machine learning workflows. Interested in Data Science, Data Engineering, AI Engineering, and Machine Learning Engineering roles.

EXPERIENCE

VinSmart Future | Machine Learning Intern

Ride-Booking Demand Forecasting | Ho Chi Minh City

- Participated in a project to forecast customer ride-booking demand using simulated data.
- Project scope covered model experimentation and training, model serving, and monitoring.

TADA LABS 06/2025 - 11/2025

- Electricity-sector chatbot: worked on tasks involving a chatbot powered by a large language model (LLM).
- Sales ERP web application: worked on a web-based enterprise sales management project.

APPLIED AI PROGRAM

AI in Action | Vingroup Applied AI Talent Program (VinUniversity)

Project: Vinpearl Travel Advisory Chatbot

- Participated in a travel consultation chatbot project using FastAPI, LLMs, AI agents, and DevOps.

SELECTED ACADEMIC PROJECTS

Regional Accent Recognition | Deep Learning 2024

Data collection and preprocessing, feature extraction, class imbalance handling, and train/test preparation.

University Course Registration Website | Full-Stack Development 2025

Frontend and backend development, database operations, authentication, and authorization.

TECHNICAL SKILLS

Languages: Python, C, C++, Java, JavaScript, SQL

AI & Machine Learning: Machine Learning, Deep Learning, LLMs, AI Agents

Web & Backend: HTML, CSS, FastAPI, Django

Databases & Tools: PostgreSQL, SQL Server, Git, GitHub, DevOps, Power BI

EDUCATION

Industrial University of Ho Chi Minh City (IUH) | Data Science

ACADEMIC NOTE Final-year student | GPA: 3.2 | English proficiency certificate: pending (graduation requirement).
